

SMART SCHOLARSHIPS: MDA INTERNSHIPS AND FUTURE CAREER OPPORTUNITIES

(Deadline: December 1)

Do you know any students pursuing a degree in, or closely related to, Science, Technology, Engineering, and Mathematics disciplines? If so, it's time for them to apply for a DoD Science, Mathematics, and Research for Transformation (SMART).

The SMART Scholarship Program is a scholarship-for-service program designed to produce the next generation of DoD S&T leaders. MDA has participated as a Sponsoring Facility since 2016 in the areas of Engineering and Cyber at our major locations: Huntsville, Colorado Springs, and Dahlgren. The deadline for scholarship applications is December 1, at 4 p.m., CST.

SMART scholars have the opportunity to participate in summer internships and future career opportunities at MDA or other DoD activities! The scholarship benefits include: tuition, stipends, health insurance allowance, and more! Click the links to learn more.
